9.104-2 Special standards.

(a) When it is necessary for a particular acquisition or class of acquisitions, the contracting officer shall develop, with the assistance of appropriate specialists, special standards of responsibility. Special standards may be particularly desirable when experience has demonstrated that unusual expertise or specialized facilities are needed for adequate contract performance. The special standards shall be set forth in the solicitation (and so identified) and shall apply to all offerors.

(b) Contracting officers shall award contracts for subsistence only to those prospective contractors that meet the general standards in 9.104-1 and are approved in accordance with agency sanitation standards and procedures.

9.104-3 Application of standards.

(a) *Ability to obtain resources.* Except to the extent that a prospective contractor has sufficient resources or proposes to perform the contract by subcontracting, the contracting officer shall require acceptable evidence of the prospective contractor's ability to ob-

tain required resources (see 9.104-1(a), (e), and (f)). Acceptable evidence normally consists of a commitment or explicit arrangement, that will be in existence at the time of contract award, to rent, purchase, or otherwise acquire the needed facilities, equipment, other resources, or personnel. Consideration of a prime contractor's compliance with limitations on subcontracting shall take into account the time period covered by the contract base period or quantities plus option periods or quantities, if such options are considered when evaluating offers for award.

(b) *Satisfactory performance record.* A prospective contractor that is or recently has been seriously deficient in contract performance shall be presumed to be nonresponsible, unless the contracting officer determines that the circumstances were properly beyond the contractor's control, or that the contractor has taken appropriate corrective action. Past failure to apply sufficient tenacity and perseverance to perform acceptably is strong evidence of nonresponsibility. Failure to meet the quality requirements of the contract is a significant factor to consider in determining satisfactory performance. The contracting officer shall consider the number of contracts involved and the extent of deficient performance in each contract when making this determination. If the pending contract requires a subcontracting plan pursuant to Subpart 19.7, The Small Business Subcontracting Program, the contracting officer shall also consider the prospective contractor's compliance with subcontracting plans under recent contracts.

(c) *Affiliated concerns.* Affiliated concerns (see *Concern* in 19.001 and *Affiliates* in 19.101) are normally considered separate entities in determining whether the concern that is to perform the contract meets the applicable standards for responsibility. However, the contracting officer shall consider the affiliate's past performance and integrity when they may adversely affect the prospective contractor's responsibility.

(d)(1) *Small business concerns.* If a small business concern's offer that would otherwise be accepted is to be rejected because of a determination of

Federal Acquisition Regulation

9.105-1

nonresponsibility, the contracting officer shall refer the matter to the Small Business Administration, which will decide whether or not to issue a Certificate of Competency (see subpart 19.6).

(2) A small business that is unable to comply with the limitations on subcontracting at 52.219-14 may be considered nonresponsible.

[48 FR 42142, Sept. 19, 1983, as amended at 53 FR 27463, July 20, 1988; 53 FR 34226, Sept. 2, 1988; 56 FR 55378, Oct. 25, 1991; 60 FR 48260, Sept. 18, 1995; 61 FR 67410, Dec. 20, 1996; 62 FR 44820, Aug. 22, 1997; 63 FR 70267, Dec. 18, 1998; 65 FR 80264, Dec. 20, 2000; 66 FR 66989, Dec. 27, 2001; 67 FR 13068, Mar. 20, 2002]

9.104-4 Subcontractor responsibility.

(a) Generally, prospective prime contractors are responsible for determining the responsibility of their prospective subcontractors (but see 9.405 and 9.405-2 regarding debarred, ineligible, or suspended firms). Determinations of prospective subcontractor responsibility may affect the Government's determination of the prospective prime contractor's responsibility. A prospective contractor may be required to provide written evidence of a proposed subcontractor's responsibility.

(b) When it is in the Government's interest to do so, the contracting officer may directly determine a prospective subcontractor's responsibility (e.g., when the prospective contract involves medical supplies, urgent requirements, or substantial subcontracting). In this case, the same standards used to determine a prime contractor's responsibility shall be used by the Government to determine subcontractor responsibility.

9.105 Procedures.

9.105-1 Obtaining information.

(a) Before making a determination of responsibility, the contracting officer shall possess or obtain information sufficient to be satisfied that a prospective contractor currently meets the applicable standards in 9.104.

(b)(1) Generally, the contracting officer shall obtain information regarding the responsibility of prospective contractors, including requesting

preaward surveys when necessary (see 9.106), promptly after a bid opening or receipt of offers. However, in negotiated contracting, especially when research and development is involved, the contracting officer may obtain this information before issuing the request for proposals. Requests for information shall ordinarily be limited to information concerning (i) the low bidder or (ii) those offerors in range for award.

(2) Preaward surveys shall be managed and conducted by the surveying activity.

(i) If the surveying activity is a contract administration office—

(A) That office shall advise the contracting officer on prospective contractors' financial competence and credit needs; and

(B) The administrative contracting officer shall obtain from the auditor any information required concerning the adequacy of prospective contractors' accounting systems and these systems' suitability for use in administering the proposed type of contract.

(ii) If the surveying activity is not a contract administration office, the contracting officer shall obtain from the auditor any information required concerning prospective contractors' financial competence and credit needs, the adequacy of their accounting systems, and these systems' suitability for use in administering the proposed type of contract.

(3) Information on financial resources and performance capability shall be obtained or updated on as current a basis as is feasible up to the date of award.

(c) In making the determination of responsibility (see 9.104-1(c)), the contracting officer shall consider relevant past performance information (see subpart 42.15). In addition, the contracting officer should use the following sources of information to support such determinations:

(1) The Excluded Parties List System maintained in accordance with Subpart 9.4.

(2) Records and experience data, including verifiable knowledge of personnel within the contracting office, audit offices, contract administration offices, and other contracting offices.

(3) The prospective contractor—including bid or proposal information,
